| 40 | Other (catch-all)                    | Both    | Seller picks Goods / Service · Free-form key-value specs (add your own fields)                                      |

### Notes

- Fields **category ke type** se decide hote hain — Goods (teal), Service (blue), Other (amber = seller khud goods/service chune).
- Ye per-category **suggested attribute set** hai; admin CRUD se add/edit ho sakta hai. Ek-ek field ka type (text / number / select / boolean) CategoryAttribute me define hoga.
- Sub-category select hone pe aur bhi fine attributes add ho sakte hain (Phase 2); Phase 1 me top-category level pe ye fields kaafi hain.
